

"through the picture cards, the students have more confidence in teaming and a higher level of self-confidence in presenting in many areas: at tournaments, in class, or when presenting in classes."

Stefan K., teacher, Erlangen

## The KICKFAIR picture cards Germany 2016-2017

KICKFAIR e.V. & ROBERT BOSCH STIFTUNG

The development of the KICKFAIR picture cards was a project with the Robert Bosch Foundation. The aim was, as a first step, to make the KICKFAIR game method easier to understand via picture language and thus to promote encounters and joint learning among young people. In collaboration with the illustrator and intercultural trainer Yorgos Konstantinou, KICKFAIR translated the various elements of KICKFAIR street soccer into picture cards. Thus, language barriers receded into the background and an encounter at eye level became possible.
