## The INSULANER elementary school Berlin 2017-2018

KICKFAIR e.V. & Katharina Jakob

With the project, students at the Grundschole am Insulaner in Berlin have redesigned the school rules. The project is supported by the school partner Kickfair e.V. and lead by visualiser and educator Yorgos Konstantinou. Through games, art and workshops as well as on the pitch, children learn to meet each other at eye level. The goal of the project is to strengthen the school community by jointly establishing rules in which everyone feels considered and valued.
